BELKIN

Powerline AV Single Adapter

Powerline AV allows you to reliably transmit content from your Internet directly to your computer and other network devices through the electrical wires in your home. Transfer speeds of up to 200Mpbs makes Powerline AV ideal for streaming media to your home entertainment devices such as gaming consoles and set-top boxes.

Powerline is a great solution for areas in the home that are hard to reach by wireless connections, Powerline is the most reliable solution for providing secure Internet connectivity to these remote areas

Setup of Powerline is simple with its plug-and-play connectivity. Connect one adapter to your router and plug it into an available electrical outlet. Plug the second adpter into an available wall outlet and connect the other end to any device with an available Ethernet port such as a gaming console, set-top box, or computer.
